

## About International Callback

### What is International Callback?

International Callback is a telephone service which direct your phone call through the American telephone network. The American phone network is amongst the cheapest in the world and therefore you benefit by using their low prices.

### Major Benefits:

- Use to call to and from every country
- Rates as much as 80% less than regular call charges
- Telephone-to-Telephone quality (no low quality internet lines)
- Ultra-Convenient Speed-Dial numbers you can call from anywhere.
- No PIN codes to remember
- Fully itemized call records online
- Instant account management online

### How to Use International Callback:

1. Dial a unique telephone number in the USA. Let the phone ring once only and hang up
2. UWT's computers will recognize that you want to make a call and within 3-8 seconds you will be called back on the phone you registered the service for.
3. Enter the number you wish to dial and press #

### Example Rates (effective May 2005)

Prices are quoted for connections to and from land-lines unless otherwise stated.  
Rates are subject to change.
